

HRGreen

From Plan to Product

# construction services

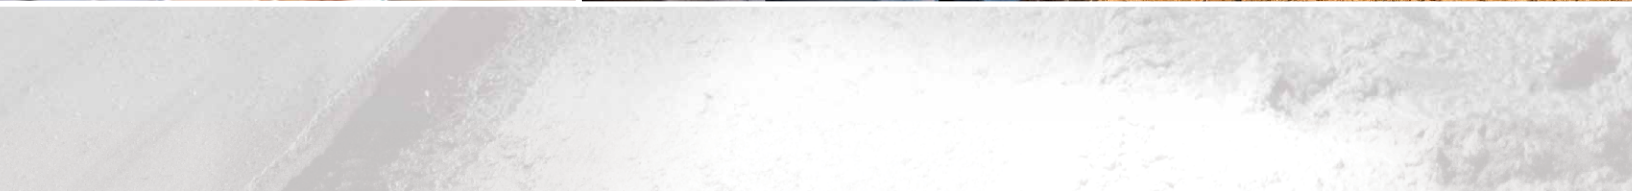

As a client, you make a big investment in quality design. A good construction engineer reduces your risk and protects your investment. Construction engineering also helps you navigate the maze of documentation required by funding agencies.

HR Green provides tailored construction services to match our clients' specific project needs, safeguarding your investment during the crucial construction phase. We deliver success, and we deliver peace of mind.

## Construction Services:

- Resident Engineering Services
- Governmental Liaison Engineering
- Construction Observation
- Constructability Reviews
- Utility Permit Coordination
- Contract Administration
- Final Project Review & Acceptance
- Expert Testimony
- NPDES Compliance Monitoring & Consulting

## Bringing it all Together

Effective construction administration services begin long before the start of construction. Scope, design, cost and schedule management are essential for every major project.
